PROJECTS

10/2024 – 2025

ADShope – Fullstack E-Commerce Platform

Live Demo: <https://adshop-main.vercel.app>

GitHub: <https://github.com/amir-ashrafi/adshop-main>

Tech Stack: Next.js, TypeScript, React, Tailwind CSS, Prisma, PostgreSQL, Clerk, Cloudinary

Project Description:

- Fully functional e-commerce platform with a responsive storefront, product search/filtering, and detailed product pages.
- Dynamic admin dashboard with CRUD operations for products, orders, users, and blog posts.
- Authentication and role-based access using Clerk.
- Image upload support via Cloudinary.
- Discount system with countdown timer fully manageable from the admin panel.
- Optimized for SEO, performance, and accessibility.

2024 – 2025

Personal Portfolio – Ashrafi

[link website](#)

- Developed a personal portfolio website to showcase projects and skills as a **Front-end Developer**
- Built with **Next.js 14** and **React 19** using the latest **App Router** structure
- Designed a **responsive and modern UI** using **Tailwind CSS** and **custom components**
- Added scroll and element animation using **Framer Motion** for interactive experience
- Integrated **React Icons** for consistent and scalable iconography
- Optimized for **performance and SEO** using Next.js built-in features

CERTIFICATES

Fullstack Open, University of Helsinki – June 2025
